

6516206844.txt

This is unbelievable. I have been a satellite radio subscriber for over a year now, and it is an incredible service. I pay extra, but I enjoy the commercial free programming. Since I drive 30 miles to and from work each day, the traffic and weather reports are a great help. On regular radio, I sometimes have to wait 30 minutes to get traffic. By then it is too late. Please do not remove my ability to save time on my commute by learning of traffic problems as soon as they arise.
